Defendants AT&T Services, Inc., AT&T Mobility LLC, and AT&T Corp.¹ (collectively, “Defendants” or “AT&T”) answer Plaintiff XR Communications, LLC dba Vivato Technologies’ (“XR” or “Plaintiff”) Complaint for Patent Infringement (“Complaint”) against Defendants as follows:

INTRODUCTION

1. AT&T admits that the Complaint purports to make a claim for patent infringement of U.S. Patent Nos. 8,737,511 (the “511 Patent”), 10,715,235 (the “235 Patent”), 10,594,376 (the “376 Patent”), 7,177,369 (the “369 Patent”), and 8,289,939 (the “939 Patent”), and collectively refers to the patents as the “Asserted Patents.” AT&T lacks knowledge or information sufficient to form a belief as to the ownership of the Asserted Patents. AT&T denies it has infringed any of the Asserted Patents and denies any remaining allegations in Paragraph 1.

¹ Plaintiff has voluntarily dismissed AT&T Inc. from this lawsuit. *See* Dkt. 21. As used herein, the terms “AT&T” and “Defendants” do not include AT&T Inc.

22. To the extent that the allegations of Paragraph 22 of the Complaint set forth legal conclusions, no response is required. For purposes of this action only, AT&T does not challenge that AT&T is subject to personal jurisdiction within this District. AT&T admits that one or more of the Defendants have conducted and conduct certain business in the State of Texas and in the Eastern District of Texas. AT&T denies the remaining allegations set forth in Paragraph 22.

23. To the extent that the allegations of Paragraph 23 of the Complaint set forth legal conclusions, no response is required. 24. To the extent that the allegations of Paragraph 24 of the Complaint set forth legal conclusions, no response is required. AT&T denies that it engages in any acts of infringement in this District or elsewhere. AT&T, however, does not contest whether venue in this District is proper pursuant to 28 U.S.C. § 1400(b) for purposes of this action only; but it does deny that this is the most convenient forum in which to try this case. In its Answer at ¶ 14, AT&T Mobility LLC did not challenge the propriety of venue in this District, but reserved the right to move to transfer or move to change this case to a more convenient forum. AT&T further denies that it admitted or did not contest that this District was a proper venue for patent infringement in *IPCom, GmbH & Co. KG v. AT&T Inc., et al.*, No. 2:20-cv-322, Dkt. 21 (E.D. Tex. Dec. 18, 2020). In its Answer at ¶ 14,

DEFENSES

Subject to the responses above, AT&T alleges and asserts the following defenses in response to the allegations, without admitting or acknowledging that AT&T bears the burden of proof as to any of them or that any must be pleaded as defenses. AT&T specifically reserves all rights to allege additional defenses that become known through the course of discovery.

**FIRST DEFENSE
(NO INFRINGEMENT)**

80. AT&T has not infringed and does not infringe any valid and enforceable claim of the Asserted Patents, in any manner including under any section of 35 U.S.C. § 271, including 35 U.S.C. §271(a), (b), and/or (c), willfully or otherwise. AT&T has not performed any act and are not proposing to perform any act in violation of any rights validly belong to Plaintiff.

81. AT&T does not indirectly infringe any asserted claim and, in particular, do not induce any third party to perform all of the required steps of any asserted method claims while using any of the accused products.

82. AT&T has not infringed and does not infringe either literally or by the doctrine of equivalents.

83. AT&T does not supply any component that contributes to infringement of any valid claim.

**SECOND DEFENSE
(INVALIDITY)**

84. The asserted claims of the Asserted Patents are invalid for failure to satisfy the requirements of 35 U.S.C. § 100, *et seq.*, including, but not limited to, one or more of the following: 35 U.S.C. §§ 101, 102, 103, and/or 112. For example, each claim is invalid in view of the references cited by the Examiner and arguments made by the Applicants during prosecution of the applications that issued as the Asserted Patents.

**THIRD DEFENSE
(NOTICE, DAMAGES, AND COSTS)**

85. Plaintiff's claims for damages are statutorily limited under 35 U.S.C. §§ 252, 286, 287, or 307. To the extent Plaintiff or its licensees have failed to comply with the marking and notice requirements of 35 U.S.C. § 287(a), Plaintiff's requested relief is barred, in whole or in part,

for any damages arising from AT&T's alleged infringement prior to at least the date of the filing of the original Complaint or otherwise limited by 35 U.S.C. § 286.

86. Plaintiff is barred from recovering costs in connection with this action under 35 U.S.C. § 288.

87. Plaintiff's claims for relief are limited by the doctrines of full compensation, exhaustion, and/or first sale, and Plaintiff is not entitled to a double recovery.

**FOURTH DEFENSE
(PROSECUTION HISTORY ESTOPPEL)**

88. Plaintiff's claims are barred by the doctrine of prosecution history estoppel based on statements, representations, and admissions made during the prosecution of the patent applications resulting in the Asserted Patents before the United States Patent and Trademark Office and/or during the prosecution of related patent applications.

**FIFTH DEFENSE
(FAILURE TO STATE A CLAIM)**

89. The Complaint fails to state a claim upon which relief can be granted.

**SIXTH DEFENSE
(LICENSE, IMPLIED LICENSE, AND/OR EXHAUSTION)**

90. Plaintiff's claims for patent infringement are precluded in whole or in part (i) to the extent that any allegedly infringing products or components thereof are supplied, directly or indirectly, to AT&T by any entity or entities having express or implied licenses or covenant not to sue or assert to the Asserted Patents and/or (ii) under the doctrine of patent exhaustion. Additionally, Plaintiff's claims for patent infringement are precluded in whole or in part to any direct licenses or agreements/covenants not to sue that pertain to AT&T.

**SEVENTH DEFENSE
(INEQUITABLE CONDUCT)**

91. Plaintiff's enforcement of at least the '235 Patent, the '376 Patent, and the '939 Patent is barred by inequitable conduct, as follows:

92. The '235, '376, and '939 Patents all ultimately arose from applications originally filed in 2003 as Application Serial Numbers 10/700,329 for the '235 and '376 Patents and 10/700,342, for the '939 Patent.

93. By fall of 2007, the '329 and '342 applications were owned by Vivato Networks, Inc.

94. In November 2007, Aequis Capital Management, Inc. ("Aequis Capital") agreed to loan up to \$1,000,000 to Vivato Networks, with an initial advance of \$300,000, secured in part by the patent applications.

95. In December 2007, Vivato Networks merged with Catcher Holdings, Inc. ("Catcher"), and transferred the patent applications to Vivato Networks Holdings, Inc. ("Vivato Holdings"). Vivato Holdings granted Catcher the exclusive right to prosecute the applications. On April 1, 2008, Catcher ceased operations and terminated all employees due to a lack of working capital.

96. In late April or early May 2008, Brooks withdrew as the attorney of record for the '329 and '342 applications.

97. In June 2008, Aequis Equipment Finance, LLC ("Aequis"), assignee of Aequis Capital's security interest in the applications, sought to foreclose on the '329 and '342 applications, each of which became abandoned between June and July 2008 for failure to respond to office actions from the United States Patent and Trademark Office ("USPTO").

98. In April 2009, Aequitas obtained a foreclosure judgment against Vivato Networks and Vivato Holdings, and took titled of the abandoned applications through a sheriff's sale.

99. In fall 2009, Carl J. Schwedler, attorney for Aequitas, filed petitions to revive the '329 and '342 applications. As part of each of those petitions, Schwedler represented that the entire period of delay from the due date for filing a reply to the pending USPTO office actions to the date of the petitions, was unintentional under 37 C.F.R. § 1.137(b)(4).

100. Upon information and belief, Schwedler's representation that the delay in prosecuting the applications was unintentional was false.

101. The USPTO granted the petitions filed by Aequitas to revive the '342 application, but denied the petition to revive the '329 application. In December 2009, Aequitas sold its patent portfolio (including the revived '342 application and the still-abandoned '329 application) to Plaintiff XR.

102. In 2010, XR took responsibility for prosecuting the patent applications.

103. On November 8, 2010, Daniel P. Burke, an attorney for XR, filed a renewed petition to revive the '329 application. In doing so, Burke represented to the USPTO that the entire period of delay from the due date for filing a reply to the pending USPTO office action to the date of the petition was unintentional.

104. Upon information and belief, Burke's representation that delay in prosecuting the applications was unintentional was false, and XR itself would not have had knowledge of the circumstances surrounding the abandonment of the applications.

105. Upon information and belief, the delay that resulted in abandonment of the '329 and '342 applications was not unintentional.

106. Catcher's SEC filings reflect that, at least as of September 2007, it likely had sufficient funds to pay for prosecution of the applications. Moreover, Catcher's wholly-owned subsidiary Vivato Networks had received an agreement for a \$1,000,000 loan in November 2007 (with \$300,000 advances), which could have been used to pay for prosecution of the '329 and '342 applications.

107. Therefore, upon information and belief, Aequis and XR falsely certified that the entire period of delay in replying to the PTO was unintentional.

108. Upon information and belief, the false representations that the entire period of delay in responding to the USPTO with respect to the '329, and '342 applications was unintentional were made with intent to deceive the USPTO into granting the petitions to revive. Specifically, upon information and belief, the following petitions to revive (and requests for reconsideration) contained knowingly false statements made with intent to deceive, and were material to the USPTO's decision to revive the applications and ultimately issue the Patents-in-Suit:

- a. The petition to revive the '329 application, filed on August 28, 2009 by Schwedler;
- b. The petition to revive the '342 application, filed on November 3, 2009 by Schwedler;
- c. The request for reconsideration of the dismissal of the petition to revive the '329 application, filed on November 18, 2009 by Schwedler; and
- d. The renewed petition to revive the '329 application, filed on November 8, 2010 by Burke.

109. Upon information and belief, the false representations that the entire period of delay in responding to the USPTO with respect to the '329 and '342 applications was unintentional were

material to the USPTO, because without that false representation the USPTO would not have ultimately granted the petitions to revive and the '235, '376, and '939 Patents never would have issued.

110. Accordingly, upon information and belief, Aequitas, XR and their counsel engaged in inequitable conduct in reviving the '329 and '342 applications.

**EIGHTH DEFENSE
(STATUTORY LIMITATIONS)**

111. To the extent certain equipment accused of infringing the Asserted Patents are used by and/or manufactured for the United States Government and/or public good, Plaintiff's claims involving AT&T may not be pursued in this Court and are subject to other limitations pursuant to 28 U.S.C. § 1498.

**NINTH DEFENSE
(NO ENTITLEMENT TO INJUNCTIVE RELIEF)**

112. XR is not entitled to injunctive relief. Under *eBay v. MercExchange, LLC*, 547 U.S. 388 (2006), any alleged injury to XR would not be immediate or irreparable, XR would have an adequate remedy at law, and the balance of hardships does not warrant injunctive relief.

RESERVATION OF DEFENSES

AT&T hereby reserves the right to supplement defenses as discovery proceeds in this case.

PRAYER FOR RELIEF

WHEREFORE, AT&T prays for judgment as follows:

- a. A judgment dismissing Plaintiff's Complaint with prejudice;
- b. A judgment in favor of AT&T on all of their Defenses;
- c. A judgment that AT&T has not infringed, contributed to the infringement of, or induced others to infringe, either directly or indirectly, any valid claims of the Asserted Patents;
- d. A judgment that the Asserted Patents are invalid;

- e. A judgment that the Asserted Patents are unenforceable;
- f. An award to AT&T of their fees and expenses of litigation;
- g. A judgment limiting or barring Plaintiff's ability to enforce the Asserted Patents in equity;
- h. Such other and further relief as this Court may deem just and proper.
